# 项目

## • 布丁电影票

布丁电影票是我在创新工场布丁移动开发的项目。我作为v2.0项目的唯一开发(项目后期加入一人),重写了v1.0的大部分代码,因为v2.0不管是从界面还是功能都有很大的变动。此App包含电影票的普遍功能,如电影上映和未上映的排班表,电影院的显示,个人信息管理,在线购票(包含通兑票和选座票)等等。由于这个项目2012年的项目,其中还涉及了手动的内存管理。前后台的数据交互使用了thrift框架。

**buding movie ticket** is my project in Innovation works buding company. I'm the major developer of v2.0, rewrite almost entire project source code, due to the UI and function changed a lot since v1.0. The App contains other movie coupon's common features such as the movie schedules, the cinama list, personal information management, buy ticket online(movie ticket for universal exchange & movie ticket for selected seat). Because this project is in 2012, so I used manually memory management. This project uses thrift framework to exchange data between frontend and backend.

#### 丽子美妆

丽子美妆是我在辛巴信息技术(杭州)有限公司的项目。我从v2.1后加入项目,负责项目的开发。丽子美妆是在线的化妆品商城,和PC端<u>lizi.com</u>相辅相成。在这个项目中我重构了大部分的代码,使得项目更加清晰整洁,添加新的功能也更加的快捷。

**Lizi** is my project in Xinba tech.(HangZhou) Ltd. I attend the project after v2.1. Lizi in a online cosmetics market, along with the pc website <u>lizi.com</u>. In this project I refactor most of the code, make the code clean and readable, reduce the work time when add new features.

### • 布丁优惠券

布丁优惠券是我在创新工场布丁移动参与的第二个项目。由于我是后期才加入这个项目的,主要职责是实现新的功能。此App是各种商店提供的电子优惠券的一个集合,用户可以搜索优惠券,查看优惠券,使用优惠券。

**buding coupon** is my second project in Innovation works buding company. In this project my duty is to add new features. This app is a collection of all kinds of electronic coupon, users can search coupon, check coupon and use coupon with it.

## ● <u>爱铂in</u>

爱铂in是我在通策医疗投资股份有限公司的项目。爱铂in是一款服务于企业内部的社交软件,它集企业微博、企业通讯录、客户通讯录、商品发布等服务于一身,为企业实现全民营销提供一个快速便捷的信息通道入口。我用CoreText实现了图文混排,用XMPP实现了聊天功能(包括单聊和群聊)。

**AiBo in**is a company internal social network app. It contains company twitter, company contacts, personal contacts, publish commodities. I use CoreText to mixed image and text, use xmpp to implement the chat function(include one to one and group chat).
